cilindric[®] cameleo

fits your wildest ideas...

Warm Walnut

MORE than stainless steel. Enjoy the endless possibilities of top quality covers offering total integration with any interior, from classic to contemporary, from rustic to futuristic.

Plastic Fantastic

MEET the revolution in glass door hardware: cilindric® cameleo by Stremmer Glass Hardware, the leading ASSA ABLOY glass solutions brand. A novel, classy solution with a playful touch.

A hand holding a paintbrush is shown in the upper right corner, painting a thick, wavy, grey line across a background of a small, repeating checkered pattern. The line starts near the top right and curves downwards and to the left, passing behind the main title.

Cool Carbon

STAY tuned. Trends evolve. cilindric® cameleo offers you the unique opportunity to adapt your door hardware to your changing tastes. Do it the cameleo way!

Subtly Scandinavian

ENJOY the subtle look of the covers, available in a surprising range of patterns. Marble, beech wood, walnut, carbon - you name it, we've got it.

Marvellous Marble

GO for a total look with assorted covers and door handles. Have your glass door hardware blending with your interior. Full integration is the name of the game.

Flexible & Customisable

CHOOSE from an astounding spectre of standard colours in glossy, RVS or brass look finishes. All RAL colours can be ordered. And if you still don't find what you are looking for, we'll customize your colour. Do you want your logo on the covers? We deliver.

SWITCH covers at your slightest whim. cilindric® cameleo covers vertically slide over their stainless steel base. A child can do it. No tools, no hassle.
