GATE CLOSERS WITH SLIDING ARM

Extremely easy to install, these gate closers are particularly recommended for added safety and security of residences

- to prevent toddlers and pets from exiting pedestrian gates unadventently left open
- to make sure that gates are closed at all times

FEATURES

- Two closing speeds independently controlled by thermostatic valves.
- Adjustable power (art.680 C).
- Adjustable back check (art.680 C).
- Pinch free sliding arm & rail for safe use.
- Soft opening and strong closing.
- Suitable for gates with or without protruding bars.
- Finish: black.
